**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 21-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 is indefinite because it fails to accurately set forth the invention. While the specification describes an optical arrangement wherein an angle formed by an optical axis of converging light and a normal to a light incidence surface of a color separation member being less than 45 degrees (as in the Claims patented in 6,637,889) such an arrangement would result in an angle formed by the optical axis of the converging light with respect to the color separation optical member being **GREATER** than 45 degrees. Such a limitation is in contradiction to the limitations claimed in Claim 21. Please note that amendment to Claim 21 to read "greater" would be subject to a double patenting rejection.

Art Unit: 2851

Additionally, it noted that Page 17 Paragraph (0051) specifically teaches away from the claimed embodiment.

***Allowable Subject Matter***

3. Claims 14, 16-20 are allowed.

***Response to Arguments***

4. Applicant's arguments with respect to claims 21-23 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2851

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
